 - [Краткая информация](#)(see page 6)

1 Общее заключение

1.	Блокирующие и важные дефекты производительности отсутствуют	Соответствует
2.	Запланированный объем регламентных тестов HT выполнен	Соответствует
3.	Профили нагрузки при проведении HT соответствовали методике HT	Соответствует
4.	Бизнес-характеристики соответствуют согласованным требованиям	Соответствует
Рекомендация к внедрению релиза AC		

1.1 Настройки стенда в момент теста

executor.audit-events-send.initial-delay.ms=10000  
executor.audit-events-send.period.ms=10000
```

1.2 Краткая информация

- Период тестирования: 2026-03-18 12:09:494 - 2026-03-19 10:28:51**
Время затраченное на проливку 22 часа для ладера, 22 часа работы API
- Интенсивность нагрузки - **licenses-loader**: Общие метрики - 60 млн, Отраслевые метрики - 60 млн, Деталка - 5 млн
 - Параллельно с тестом загрузчиков шла нагрузка sberrating-**licenses**(стабильная нагрузка, 400% от профиля - 1.6 tps)

Количество пролитых записей

Количество данных в БД

The screenshot shows a database query interface with the following SQL query:

```
select count(*) FROM licenses.t_categoryvalue where sys_lastchangedate > '2026-03-18 12:00:51.000'  
union all  
select count(*) FROM licenses.t_value where sys_lastchangedate > '2026-03-18 12:00:51.000'  
union all  
select count(*) FROM licenses.t_licenses where sys_lastchangedate > '2026-03-18 12:00:51.000';
```

The results are displayed in a table with 3 rows:

count
60 000 000
60 000 000
5 000 000

A tooltip shows the value 60000000.

Таблица, заполняемая при проливке	Количество пролитых записей	Количество записей по профилю	Попадание	Insert	Update	Delete
t_categoryvalue	60000000	60000000	100,0%	-	60000000	-
t_value	60000000	60000000	100,0%	-	60000000	-
t_licenses	5000000	5000000	100,0%	-	5000000	-

Данные по количеству пролитых записей с прошлой проливки

Таблица, заполняемая при проливке	Количество пролитых записей	Количество записей по профилю	Попадание	Insert	Update	Delete
t_categoryvalue	60000000	60000000	100,0%	26467141	33532859	-
t_value	59865988	60000000	99,8%	-	60000000	-
t_licenses	5000000	5000000	100,0%	3216210	-	-
